

Acme Corp Compliance Handbook 2024

Table of Contents

- Section 1 — Onboarding
- Section 2 — Compensation
- Section 3 — Paid Leave
- Section 4 — Travel Reimbursement
- Section 5 — Equipment Allowance
- Section 6 — Termination & Severance

Section 1 — Onboarding

All new hires must complete onboarding within their first ten business days. Onboarding includes IT setup, security training, and an introduction to company-wide compliance policies.

Each new hire is paired with a buddy from a different team. Buddy assignments are tracked by People Operations and renewed every six months.

Section 1.1 — Required Training

Mandatory training modules cover information security, anti-harassment policies, and data privacy. Completion is recorded in the LMS within thirty days of start date.

Section 2 — Compensation

Base salaries are reviewed annually in January. The starting salary for a junior engineer is 75000 USD per year, adjusted for cost-of-living differences across regions.

Bonuses are discretionary and depend on individual and company performance.

Section 2.1 — Equity

Employees may receive equity grants at hire and on promotion. Vesting follows a standard 4-year schedule with a 1-year cliff.

Section 3 — Paid Leave

Paid time off is granted annually and scales with tenure. See the employee policy handbook for the full tenure schedule.

Section 3.1 — Sick Leave

Up to ten days per year of paid sick leave are granted to all full-time employees. Unused sick leave does not roll over.

Section 4 — Travel Reimbursement

Business travel is reimbursed on a receipts-required basis. Submit an expense report within fourteen days of return. Per-diem meal allowance is 60 USD per day.

Section 4.1 — Exceptions

Air travel exceeding 2500 USD requires CFO approval before booking. This threshold applies to the total ticket price including taxes and fees; it does not apply to ground transportation or hotel costs.

Any exception above the standard policy must be documented in the expense report.

Section 5 — Equipment Allowance

Each employee receives a 1500 USD equipment allowance on hire, renewable every three years. Approved purchases include laptops, monitors, and ergonomic accessories.

Section 5.1 — Software

Site licenses for standard tooling (IDE, communication, productivity) are provided by IT and do not draw against the equipment allowance.

Section 6 — Termination & Severance

Severance for involuntary termination is two weeks of base salary per year of service, with a cap of 50000 USD for employees below director level.

Section 6.1 — Exit Process

All company property must be returned within five business days. Final pay is issued by direct deposit on the next regular pay cycle.
